PREPUBLICATION OFFER EXPIRES JUNE 27.

From reviews of the first edition:

"We cannot think of a single library, from the largest to the smallest, that will not profit from its constant use."

—A.B. Bookman's Weekly

"The quality of the titles selected in every class is very high... the scope of the list is engaging... The compilers and their consultants are to be congratulated."

—Library Journal

\$65.00 ISBN 0-8389-0178-6

6 volumes • almost 40,000 titles • over 2,000 pages

BOOKS FOR COLLEGE LIBRARIES **SECOND EDITION**

Compiled by the Association of College and Research Libraries, a division of ALA, with the support of the Council on Library Resources.

Six handsome paperbound volumes:

1. Humanities, 2. Language and Literature, 3. History, 4. Social Sciences, 5. Psychology, Science, Technology, and Bibliography, 6. Author, Title, and Subject Indexes

For this Second Edition, nearly 40,000 titles—four-fifths of those recommended by the 1959 ALA standards as the minimum for a four-year undergraduate library—have been selected and evaluated by subject specialists. Selections have been made from titles in the first edition and from works published between 1964 and 1972. An even greater breadth of sources has been used than before and even more stringent criteria have been applied to selections for this core collection.

Cataloging and classification information has been expanded. Titles are arranged according to Library of Congress classification and are entered in the main catalog only once. Each entry is a virtually complete MARC record: author, title, edition, imprint, collation, subject and other added entries, classification number, LC card number, and ISBN.

Book House Will Deliver Any Book in Print ... and Do It Fast

Whether it is a book listed in Reference Services Review, CHOICE, Publishers Weekly or other journals, we will deliver any titles published in the United States or Canada and deliver them fast.

We take pride in the fact that several major academic libraries have made surveys which show that the average elapsed time of delivery is less on orders placed with Book House (names on request).

Our trained and competent staff is dedicated to our policy of "Concerned Service", which means that every customer is given personal service to see that no stone is left unturned in our efforts to serve you as quickly and accurately as is humanly possible.

And we are human. No computer will keep repeating the same error of title, edition, price or credit for return.

Our discount schedules are competitive, naturally! Why not give Book House a trial order and find out what "Concerned Service" can do for you!

ANY QUESTIONS? CALL 517-849-9361 COLLECT!

Let us know if you want to receive our newsletter.

Now Being Published

the Journal of Academic Librarianship

A bimonthly
journal for the
professional librarian

An independent voice providing:

- statements on the current and difficult issues facing academic librarians and the results of significant research
- the JAL Guide — key to the literature of librarianship
- articles by academic librarians on specialized topics
- pictorial features on innovative services offered by academic libraries
 - **In coming issues:** Ralph E. Ellsworth, Fred Heinritz, John Rather, Martha Boaz, Duane Webster, Paul Dunkin, Maryan Reynolds
 - **Writing on:** subjects which include change in academic libraries, collective bargaining, faculty status, cataloging, buildings, and networks of the future

the new Xerox 350 Microfilm Reader

a model of
simplicity

We designed the Model 350 with one objective in mind: simplified operation. Since even infrequent microfilm users will find it easy to use, this reader will save librarians hours of instruction time and will encourage greater use of microfilm resources.

To maximize user convenience all controls are located up front and keyed to the easy-to-follow operating instructions on the front of the unit. The 350 Reader accepts 35mm and 16mm microfilm (a microfiche adapter is also available), and can be ordered with manual or motorized drive. Both are priced substantially less than most comparable competitive models.

We'd like to send you a free brochure on the 350 Reader which explains in detail why it is truly a model of simplicity. Just write or call today.

A Quarter Century experience in Technical and Scientific Publications

NEW Up-To-Date Books From Noyes Data

NOYES DATA has developed two new techniques of vital importance to those who wish to keep abreast of rapid changes in technology and business conditions: 1) our advanced publishing systems permit us to produce durably-bound books within a few months of manuscript acceptance; 2) our modern processing plant ships all orders on the day after they are received.

HARDCOVER BOOKS PUBLISHED LATE SPRING 1975

POLLUTION CONTROL IN THE PLASTICS AND RUBBER INDUSTRY by M. Sittig: Much pollution control and removal can be effected by industry during manufacture of intermediates and end products. This book is integrated with new and timely reviews of technological methods, and contains solutions to pollution problems. ISBN 0-8155-0572-8; \$36

WATER-BASED PAINT FORMULATIONS by E.W. Flick: This eminently practical book is intended for professional formulators in the paint and coatings industry. Choosing components, raw materials or even supplies, requires much care and judgment to be done well. ISBN 0-8155-0571-X; \$28

NON-LEAD ANTIKNOCK AGENTS FOR MOTOR FUELS by R.M. Whitcomb: Aside from tetraethyllead, many compounds have been found which can control an excessive rate of pressure rise of the ignited gasoline vapor, of which "knock" is the audible manifestation. This book describes manufacture and testing of non-lead antiknock agents. ISBN 0-8155-0573-6; \$36

FISH AND SHELLFISH PROCESSING by M.T. Gillies: Deals with the preservation and practical methods for bringing fish and shellfish to the market or cannery in an organoleptically and bacterially satisfactory state, even though they may have to be transported on sea and land for several days. ISBN 0-8155-0574-4; \$36

WIND POWER by D.M. Simmons: Describes technology and economics of wind-powered energy. A suitably designed windmill and generator can produce electricity or convert seawater to hydrogen and oxygen. The fundamental difficulty is that of energy storage. Gas tanks, batteries, and DC to AC converters are required. ISBN 0-8155-0575-2; \$24

PAPER MANUFACTURE by M.G. Halpern: Contains recently developed processes for converting fibrous pulp into paper. Cost cutting, shortages, and specific requirements, e.g. a lightweight, but strong paper for journals because of high postage rates, have produced a most interesting and efficient technology. ISBN 0-8155-0576-0; \$36

METAL-BASED LUBRICANT COMPOSITIONS by H.M. Drew: Describes processes for producing lubricants based on organic metal compounds. Metal salts of sulfur and phosphorus especially can be formulated for efficient multifunctional lubricants made from petroleum and synthetic oils, with excellent performance over wide temperature ranges. ISBN 0-8155-0577-9; \$36

Introducing ACCESS

The supplementary index to periodicals

A new supplementary index designed to enlarge and enrich your reference resources. ACCESS provides a broad spectrum of 130 of today's popular magazines from *After Dark* to *Yankee*.

Every patron can benefit from ACCESS. The scholar for perspective on the "now" world . . . the browser for balanced subject offerings . . . the student for direct curriculum support.

ACCESS, edited by John Gordon Burke and Ned Kehde, covers many excellent magazines not included in any other index. It's a balanced mix of titles such as *People Weekly*, *Family Circle*, *WomenSports*, *Boating*, *Boy's Life*, *Mother Earth News*. And 43 significant city and regional magazines such as *San Francisco*, *Los Angeles*, *Philadelphia*, *Chicago*, and *Blair & Ketchum's Country Journal*.

ACCESS four-month cumulations will appear in May, 1975, and September; the annual cumulative bound volume in February. The format is by author and by subject—paralleling contemporary trends in the arrangement of card catalogs. New magazines considered worthy will be indexed beginning with their first issues.

Write today for our brochure containing complete list of periodicals indexed.

It is likely that most, if not all, of the periodicals indexed in ACCESS will be available on microform by the end of 1975. Please write for complete information.
